EXPERIENCE

Fintech startup, Almaty — Frontend Developer

MAY 2017 - PRESENT

Developing project using Vue.js. NDA.

Hipo Kazakhstan, Almaty — Frontend Developer

JUNE 2014 - PRESENT

Hipo is HR startup(<https://hipo.kz/>) I joined at very start. Created entire frontend architecture from scratch. At first I created MVP on Bootstrap. Then successfully launched new design. Created nearly 30 landing pages for different purposes. Here some: hipo.kz/santo-top, hipo.kz/world-class, hipo.kz/uber, hipo.kz/bolashak-business-competition, hipo.kz/mcdonalds-careers.

Chocomart(Chocofamily Holding), Almaty — Frontend Developer

JULY 2013 - JUNE 2014

I joined new tech team as frontend developer to refactor all code at <https://chocomart.kz>(internet retail). After 2 months we separated frontend and backend from monolithic application. That gave us boost on coding new features and optimizing website for a launch.

Alongside I participated in other products of holding: coded frontend of new user cabinet(for chocotravel – online travel service), marketing emails(for chocofood – food delivery), new design(for chocolife – local groupon).

My responsibilities were:

- Refactor legacy code
- Add new features
- Code marketing emails

EDUCATION

Suleyman Demirel Univeristy, Almaty — Computer Science(Bc.)

SEPTEMBER 2009 - JULY 2013

I was president of IT club, prefect and volunteer at charity fund. Was awarded Internet Person of year 2014 at university.
